

What do you think needs to happen to make a society that protects babies, children's and young peoples mental health and wellbeing?

Just Drop-In are joining forces with over 300 organisations across the country to advocate for babies, children and young people's mental health.

We share a common aim of wanting a society that protects babies, children's and young people's mental health and wellbeing.

We hope as part of this coalition that our collective voices will be able to strengthen systems, practice and policy.

We would absolutely love to know your views as young people, parents, carers (and people working with children, parents and carers) on how these could be improved.

What do you think locally and nationally needs to change to make a society that protects children's mental health and wellbeing?

We promise that we will share your views with this network and make them louder together!

Please email your comments to: hello@justdropin.co.uk with the subject line 'Louder Together'.
